COMMENTS FROM THE TOWN MANAGER'S OFFICE

The winter sand is now being stockpiled. We will also screen some sand for next year's tarring while we have the equipment.

Labor is becoming a very serious problem. It is usually impossible to find men who are dependable to replace anyone we lose. This situation is not unique with us but everyone we have contacted who depends on semi-skilled labor is having the same problems. We offer more pay and benefits each year and other employers do likewise in an attempt to hire the better workers. The nature of our work, with the unfavorable hours in the winter makes it some more difficult for us to find men than a job with regular hours.

Our foreman has been so far behind in his work schedule this summer, due for the most part to not enough men, that he has been unable to take his own vacation.

MAINE TO BE SUBJECT OF SPECIAL ETV PROGRAM

Employment problems in the state of Maine, with emphasis on the exodus of young people from the state, will be the subject of a special two and one-half hour program which will be aired over the Maine Educational Television Network, with headquarters at the Orono campus of the University of Maine, Tuesday, Oct. 22.

"Your environment is you," according to Mrs. Bronislawa Noyl, consultant on environmental design. That your house and garden express your personality is not so much a matter of large sums of money but of a little thought and consultation at the proper level.

Christian Science
"Now then we are ambassadors
for Christ, as though God did
beseech you by us; we pray you
in Christ's stead, be ye reconcil-
ed to God."
This passage from Paul's second
letter to the Corinthians is
part of the Responsive Reading of
this week's Christian Science Bi-
ble Lesson—Sermon titled "Doc-
trine of Atonement." It will be
read in all of the denomination's
churches this Sunday. In First
Church of Christ, Scientist, Main
and Tenth Streets, Berlin, N. H.,
the Sunday services begin at 11
a. m. Sunday School convenes at
the same hour for regular and
visiting pupils.

One of the related passages to
be read from the denominational
textbook is the following: "Je-
sus of Nazareth taught and dem-
onstrated man's oneness with the
Father, and for this we owe him
endless homage. His mission was
both individual and collective. He
did life's work afloat not only in
justice to himself, but in mercy

**CASCO BANK HAS
"DIAL-A-LOAN" SERVICE**
Starting Monday, Oct. 14, peo-
ple who live in Casco Bank's
marketing area of southwestern
Maine, will be able to "dial-a-
loan" from Casco any time day
or night, seven days a week. All
they have to do is dial 772-2180
and make application for their
loan—any kind of loan, auto,
home improvement, appliances,
consolidation of bills, or any other
personal need.

During the day this special
"dial-a-loan" number puts them
in direct contact with a Casco
credit officer who takes down all
the necessary information and
then calls them back to tell them
the bank's credit decision and
when they can pick up their
check at the branch office near-
est their home or place of busi-
ness.

At night or on the week end
when the bank is closed a record-
ing asks the prospective custom-
er a few short questions, the an-
swers to which are recorded on
tape at the bank. When the credit
officers come in the morning they
take the information from the
tape, process the request and call
the customers back to tell them
where and when they can pick
up their checks.

The bank is inaugurating this
new service because it feels there
are still a great many people who
would like to take advantage of
the lower financing charges avai-
lable at banks, but are either
too shy or find it too inconven-
ient to come to the bank and
arrange for their credit needs.
"Dial-a-loan" makes it possible
to arrange for credit in the most
convenient manner possible and is
the ultimate in convenience.

TAX CONFERENCE MAKES RECOMMENDATION TO 104th LEGISLATURE

The Bureau of Public Admin-
istration of the University of
Maine held a Property Tax Con-
ference at Orono on Sept. 11-13.
This Conference brought togeth-
er interested citizens and experts
in the tax field for the purpose
of discussion of the state's prop-
erty tax system. The following
resolution containing recommen-
dations to the 104th Maine Leg-
islature was passed at the con-
ference's final session:

Whereas, the Property Tax
Conference is assembled for the
purpose of reviewing the admin-
istration of the existing tax sys-
tem, the substance of the tax and
its alternatives; and

Whereas, this conference has
looked at the need for revitaliza-
tion of the existing tax base, re-
form of the mechanisms for ad-
ministering these taxes, and re-
lief from the burden of taxation
through some redistribution of
that burden; and

Whereas, the taxpayer of the
state of Maine needs to have con-
tinued confidence in the ability
of his assessors;

Now, Therefore, Be It Resolv-
ed

1. That the 104th Legislature
of the State of Maine initiate an
educational and training program,
sufficiently well-funded to sup-
ply a pool of well-trained assess-
ing personnel;

2. That the 104th Legislature
through appropriate legislation,
empower the state supervisory
agency to establish assessment
administrative districts;

3. That the office of assessor
become a full-time appointive
position. The state supervisory
agency shall certify the competence
of persons aspiring to such posi-
tions; and these individuals shall
acquire tenure after serving a
specified term;

4. That the Legislature declare
it to be the policy of the state
that all aggrieved property tax-
payers have an opportunity to be
heard by an impartial and qual-
ified agency to determine the
validity of their claims and that
access to the abatement and ap-
peals process be avail-
able to all taxpayers without
regard to race, color, religion,
sex or economic status under re-
asonable rules reasonably and
equitably applied;

5. That a tax research unit of
state government be established,
which would have as one of its
responsibilities the study of new
and/or alternative revenue sour-
ces; and

6. That the state supervisory
agency be augmented to provide
the necessary staff to accomplish
the job of effective state super-
vision of an equitable property
tax system.

A local concern did the exca-
vating with a one-yard dragline.
According to Mr. Holden the
ditch was dug deep to accomodate
additional water from tile drains
and smaller open ditches.

Lerone Damon of South Paris,
chairman of the conservation
district says that requests for
land drainage and smoothing are
increasing as farmers change
from dairying to more intensive
cropping.

The land was surveyed and the
ditch designed by George Holden
of the Soil Conservation Service.
